

Bernie O. Berny

**The
Pentascop**

A Pentascope for You? What is that?

Engaging with oneself has nothing to do with egocentrism. The fact that we exist is the greatest miracle, and no one can explain to us what the purpose of our existence is. We often ask ourselves, „What are we doing here in the world?“ and then we marvel, yes, we simply marvel at the miracle that we are fortunate enough to experience.

A **Pentascop**e from me is the representation of your birth horoscope from an astronomical and also from an „astromagical“ perspective. In doing so, I analyze five aspects of the celestial configurations on your birthday specifically for you. „Penta“ means „five“ in Ancient Greek, hence the name „Pentascop“!

Bernie O. Berny creates a small „horoscope“ for you.

geb. 1963 with Jupiter in Pisces

As an author, cartoonist and a friend of the sun, moon, and the stars, I have been on this Earth for a long time now. To engage in conversations with „fun-loving“ people, I offer this „Pentascop.“ It aims to contribute to bringing a little more certainty to our real presence and to illuminate everyday life through reflection.

When you engage with „astromagic,“ you run the risk of being seen as a „dreamer“ to some extent. Some criticism is justified, as there is indeed a lot of charlatanism involved, including cases of criminal exploitation of people seeking help from astrologers in difficult situations.

My Pentascope is something serious in the sense that it probably explains *only half of your personality, while the other half of being human cannot be explained.* That is an important thought to keep in mind.

My Pentascope consists of approximately 5 pages and is garnished with cartoons to help you find a loving and playful approach to interpreting your own constellations. All personally identifiable information is deleted after the Pentascope is created, and strict data protection and confidentiality are ensured. To further build trust, my Pentascope contains nothing that couldn't be published openly.

Offer:
Pentascop (5-page PDF)
via email

+ Zoom conversation
for discussion and exchange
Contribution: 45 Euros
or any other amount as
agreed upon
